

**Avanz Bio Private Limited (ISO Certified Lab)** was established by Scientists to provide a platform to learn basic and advanced techniques and acquire experience in the field of biological sciences. Our workshops and hands on training programs in techniques relevant for academia and industry R&D, aim to enhance your understanding and prepare you for an excellent future in Life sciences. Avanz bio has collaboration with different Universities and Research institutes for various activities in Biotechnology, Pharmacological and Toxicological activities.

The laboratory offers **Summer Internship/ Hands on Training/ Workshop/ Mini & Major projects** in the following areas of life sciences:

- |   |                               |
|---|-------------------------------|
| ➤ Molecular Biology                       | ➤ Agriculture Biotechnology   |
| ➤ Cell Biology and Genetics               | ➤ Environmental Biotechnology |
| ➤ Pharmacology                            | ➤ Algal Biotechnology         |
| ➤ Biochemistry                            | ➤ Herbal Technology           |
| ➤ Nanotechnology                          | ➤ Marine Biotechnology        |
| ➤ Cancer Biology                          | ➤ Food Biotechnology          |
| ➤ Enzyme Technology                       | ➤ Bioinformatics              |
| ➤ Animal Cell Culture ( <i>In-vitro</i> ) |                               |

100% Hands on  
Experience  
Assured

## Salient Features

- |                               |                                     |
|-------------------------------|-------------------------------------|
| ✓ Well Established Laboratory | ✓ Wi-fi Facility                    |
| ✓ Expertise Trainers          | ✓ Well Connected Transport Facility |
| ✓ Publication Assistance      | ✓ Affordable Training Fee           |

**Student Projects/Training:** B. Pharm., B. Tech., B. Sc., M. Pharm., M. Tech., M.S., M.Sc., M. Phil., Ph.D., in Biotechnology / Biochemistry / Microbiology / Environmental / Botany / Zoology

**We also undertake Contract Research Projects, Customized Training Modules and Analytical service.**
